## AGING

Handmade artistic processes to accentuate finishes even more. Add character to any finish with one of our ten (10) available distressing options.

Just like any masterpiece, it's important to choose the right canvas. The following wood species are available for painted finishes:

**CRAFTWOOD**

This 1-piece MDF door is for solid paint finishes with or without glaze. Available in 16 door styles. Aging options not available.

**MDF PAINT**

This 5-piece door is for solid paint finishes with or without glaze. Combination Paint Grade Maple and MDF construction. Available in all door styles. Aging options not available.

**PAINT GRADE**

This 5-piece door is for aged paint finishes. Paint grade Maple construction. Available in all door styles and aging options. Solid paint finish with or without glaze not available.

Whether you choose Craftwood, MDF Paint or Paint Grade; your box construction will be Paint Grade Maple face frames or wood veneer edge tape.

**What is MDF?**

Medium Density Fiberboard, or MDF, is an engineered wood product formed by breaking down softwood into fibers, combining it with wax and resin, & forming panels by applying high temperature & pressure. MDF cuts well, has a more stable composition, allowing less movement and joint strain, and provides a smooth surface that is ideal for painting.

**CUSTOM PAINT MATCH**
